

## 3.2 **User Logout**

This function allows all users to exit from ETTSS, and then the User Logon page is displayed. User Logout is a temporary logoff only; so user can still receive direct trades from the market.

User MUST perform OCG Logoff at day-end in order to stop further buy, sell or trades to be done.

## For Exchange's

## Exchange's customized-keyboard

customized-keyboard:

Step1: Press EXIT Step2: Press ENTER

For 101-keyboard: Step1: Press ALT + F4 Step2: Press ENTER
