

4.17 Trader Bulk Cancel (Asks Only)

This function allows traders to cancel multiple ask orders and requests in all or any one of the auto matching securities. Trader can optionally specify security code, market code, client account, ALLSTOCKS or REQ to restrict the ask orders and/or requests to be deleted. The result of the trader bulk cancellation is displayed on status window of the screen, indicating how many ask orders have been cancelled.

Completion of any Trader Bulk Cancel operation is in the background. The result of the bulk cancellation is displayed on status window, indicating how many orders were cancelled. The result of the cancellation for each order is also displayed on status window. If the Trader Bulk Cancel operation cannot be applied, the rejected result of the bulk cancellation is displayed on User messages enquiry with the rejected reason.
