4.2   Input Bid Order (For Limit Order Only)

This function allows traders to input a buy order as a limit order. Trader specifies the security code, price, quantity, all-or-nothing indicator, trade classification, etc. The message requesting confirmation contains a text description of the specified Order Type is displayed. The time, order status, stock code, bid/ask side, price and total quantity of this bid order is displayed on status bar. The bid order will be sent to credit check approval when the trade amount surpass the daily limit set by EP. Please refer to CC approve for further details.
