

# 4.23 Rejected Sales Enquiry

This non-real-time, multi-screen enquiry allows traders to enquire on all the day's sales input that has subsequently been rejected by the purchaser. No additional input is required. The details of trade including trade time, market code, security code, price, quantity, corresponding broker, reference, trade type and trade classification are displayed. Sales are displayed in Time (Descending) and then stock code (Ascending), one sale per line.
