

## 4.6 All Order Enquiry

The All Order Enquiry is a new function introduced by ET Trade Speed Station. This function acts as a full order book showing all outstanding and filled orders, including the cancelled and rejected orders. Users can filter the orders by requests, market, bid/ask, user and status.

The orders are sorted by time in descending order by default. Users can sort the orders by security code using a hot key. In addition, this page provides a hidden panel (at the lower part of the page) which can be toggled to display the outstanding requests (i.e. orders that remain in the system) or the orders that had been filled.

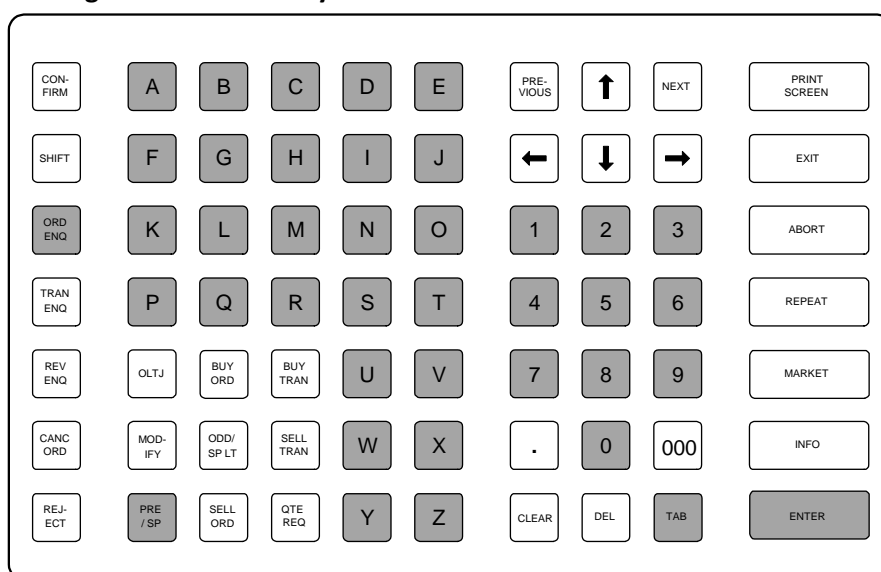

### For Exchange's customized-keyboard:
