

## 5.2 Cross Trading Device Orders Enquiry (Static)

If the Exchange Participants had subscribed “Cross Trading Device Enquiry”, this enquiry allows specific users to view all orders since the start of the trading day—filled and unfilled —performed by another BSS, ETSS or first/second terminal. Supervisor enters broker number. He may optionally specify side, market code and to include filled or not. The orders are displayed in time sequence. Odd lot / special lot orders are excluded.
